

Welcome to the Warren County Career Center Media Center!

The mission of the media center is to create a learner-oriented environment to support, extend and provide a resource for Warren County Career Center. We provide access to ideas and information for students and teachers by making available materials in a variety of formats in print and nonprint media to enhance learning. We provide a program facility that functions as the information center of the school and supports the Ohio Academic Content Standards and contributes to lifelong learning.

Print materials include: Reference materials, magazines, newspapers, fiction, nonfiction and biographies, which are available for staff and student checkout. Nonprint materials include: Internet access, Interactive Video Distance Learning, DVDs, audiovisual equipment such as SmartBoards, LCD data projectors, monitors and BluRay/DVD players, which are available for staff checkout.

Students may come to the media center any time throughout the school day with a pass from their teacher. Our goal is to provide leadership, instruction, learning activities that are integrated into the curriculum and assistance in the use of instructional and informational technology.

For more information, please contact Brenda Daker, Media Center Coordinator, at 513-932-5677 ext. 5315, or Brenda.Daker@mywccc.org.
